

Curriculum Vitae

Name: Dr. Brijesh Kumar Yadav

Current Affiliation: Associate Professor, Department of Hydrology, Indian Institute of Technology (IIT) Roorkee, Uttarakhand-247667, India,
Email: brijkfhy@iitr.ac.in, brijeshy@gmail.com

Phone: +91-1332-284755 (O), +91-1332-284755 (R)

Nationality: Indian

Education

- Ph.D. (April 2008) “Mathematical Model of Phytoextraction for Contaminated Soils”
 - Department of Environmental Resources, UNESCO-IHE Institute for Water Education, Delft, The Netherlands; Nov 2006- Oct 2008 (Advisor: Prof. Maarten A. Siebel)
 - Department of Civil Engineering, Indian Institute of Technology Delhi, India; Jan 2003- Oct 2006 (Supervisor: Prof. Shashi Mathur)
- M. Tech., Water Resources Engineering from Indian Institute of Technology (IIT) Delhi, India (CGPA 8.51/10); 1999-2000 (Dissertation: “Hydro-environmental modeling of lakes using mathematical and Artificial Neural Networks models”)
- B. E., Agricultural Engineering from College of Technology and Engineering (CTAE) Udaipur, Rajasthan, India (69.1%); 1995-1999

Research Areas/Interests

Groundwater flow and contaminant transport Modeling, Plant-soil-atmosphere interactions, Phytoremediation of heavy metal contaminated soils, Treatment wetland Analysis, Moisture flow and contaminant transport modeling in variably saturated and heterogeneous soils, Bioremediation of non-aqueous phase liquid (NAPL) polluted soils, Multiphase flow through porous media, CO₂ sequestration in deep subsurface, Nitrate transport in vadose zone, Surface water quality modeling, Solid waste management, Finite difference methods of numerical modeling, Vulnerability assessment of groundwater resources using indexing and GIS, Geophysical investigation

Work Experience

- **Associate Professor**, Department of Hydrology, **IIT Roorkee (April 2016- till date)**
- **Assistant Professor**, Department of Hydrology, **IIT Roorkee (July 2012- April 2016)**
 - Research: Soil water flow and nonpoint source pollutant movement through deep and heterogeneous vadose zone, Biodegradation of hydrocarbon polluted soils using wetlands

- Teaching: Engineering Hydrology at UG level; Elements of Hydrology, Groundwater Hydrology, and System Analysis and Groundwater Modeling at PG level
- Administrative: Officer-in-charge: Ground water laboratory, Technical tours, Library; Faculty Advisor: Cognizance 2013, 2014; Staff Advisor: Gymnasium 2013- Ongoing
- Ramanujan Fellow at **IIT Delhi (January 2011- July 2012)**
 - Research on Bioremediation of LNAPLs in (semi)-arid coastal regions using numerical and lab experiments
 - Teaching ‘Advanced Hydraulics’ (2 semesters at PG level) and ‘Hydrology’ (one semester at UG level)
- Postdoctoral Researcher at **University of California, Davis (July 2010- Dec 31 2011)**
 - Research on moisture flow and contaminant (Nitrate) transport through deep and heterogeneous vadose zone of California valley.
- Postdoctoral Researcher at **University of Utrecht, Netherlands (Nov 2008 – June 2010)**.
 - Research on bioremediation of BTEX contaminated soils using lab (batches, microcosm, column, and 2-D tank) experiments and STOMP simulator.
 - Thesis Supervisor of two Bachelor’s and two Master’s students
 - Teaching Assistant during the Masters course “Numerical simulation of multi-phase flow and transport processes in porous media” in 2008-09 (Lecturer: Majid)
- Researcher at **UNESCO-IHE Institute for Water Education, Delft (Nov 2006 - Oct 2008)**
 - Research on phytoremediation modeling of heavy metal containing soil and rhizofiltration of wastewater using pot experiments
 - Supervised two Master’s dissertations
 - Developed a course curriculum for an Indonesian university (three chapters)
 - Taught a part of “Cleaner Production and water cycle” module in 2007 and 2008
- Research Scholar at **Indian Institute of Technology (IIT) Delhi (Jan 2003 to Oct 2006)**
 - Research on Phytoremediation modeling of heavy metal contaminated soils
 - Taught 1) Fluid mechanics and 2) Ecology & Environmental dynamics as a guest lecturer at Sri Balaji College of Engineering and Technology (SBCET) Jaipur, India.
- Worked in an IT firm called **Frontier Information Technologies Ltd (FITL)**, Secunderabad, India (**May 2001 to Dec 2002**) as a Software Engineer.

Software/Numerical Skills

- Languages/GUI tool: Fortran77 and 90, C, C++, MATLAB, Visual Basic
- Software Package: HYDRUS 2/3D, STOMP, SWAT, MODFLOW, LINGO, COMSOL

Laboratory/Experimental Skills

1) Batch and microcosm study for bioremediation of LNAPL polluted soils, 2) Column and 2-D tank experiments for fate and transport of LNAPL in porous media, 3) Pot experiments for phytoremediation of a heavy metal containing wastewater, 4) Time-domain reflectometry (TDR) for measuring soil moisture content, 5) Atomic Absorption

Spectroscopy (AAS) for analyzing heavy metal content in water, 6) Digestions of plant biomass for heavy metal removal, 7) Measurement of soil moisture retention curve using sandbox and pressure plate, 8) Gas chromatography (GC) for analyzing BTEX in pore water and in headspace, 9) Design of small scale wetlands

Technical Reviewer for

1) Journal of Irrigation and Drainage Engineering, 2) Environmental Modeling and Assessment, 3) Journal of Legal Affairs and Dispute Resolution in Engineering, 4) Review in Environmental Science and Bio/Technology, 5) Soil and Plant, 6) Environmental Monitoring and Assessment, 7) Environmental Progress & Sustainable Energy, 8) CLEAN – Soil, Air, Water, 9) Water Resources Research, 10) Vadose Zone Journal, 11) Hydrology Journal, 12) Climate Dynamics

PhD Students: 01 Completed and 05 Ongoing

Masters' Thesis Supervision: 18 Completed and 02 Ongoing

PhD Students

1. Ms. Shreejita Basu, Bioremediation of LNAPLs in polluted soil-water system under varying Environmental Conditions, 2011-2016 (Awarded)
2. Mr. Anuj Mathur, Modeling LNAPL fate and transport in variably saturated zone in arid and semi-arid zones, 2011- Continuing.
3. Mr. Jahangeer, Non-point source pollutants transport in deep and heterogeneous vadose zone, 2012- Continuing
4. Mr. Pankaj Kumar Gupta, "Multi-scale fate and transport of LNAPL under varying subsurface flow conditions" July 2014- Continuing
5. Ms. Sachi Srivastava, "Hydrogeological aspects of CO₂ sequestration in subsurface" July 2014- Continuing
6. Mr. Shashi Ranjan, "In situ arsenic sequestration using permeable reactive barriers" January 2015- Continuing
7. Ms. Anooja Thomas, "Plant water uptake using root compensation and hydraulic redistribution mechanisms" 2016- Continuing

Masters' Thesis Supervision

1. Mr. Asrat Yirgu Senato, "Recycling of MSW- a case study for the city of Awassa, Ethiopia", UNESCO-IHE Institute for Water Education, Delft, April 2008.
2. Mr. Kwame Owusu-Ansah, "Evaluation of Household Solid Waste Processing Options in Accra, Ghana", UNESCO-IHE Institute for Water Education, Delft, April 2008.
3. Ms. Yvonne M. Mos, "Bioremediation of a Light NAPL (Toluene) Contaminated Soil under Different Environmental Conditions" Utrecht University, Netherlands, August 2010
4. Ms. Shristi Rajbhandari, "Investigating the effect of water table dynamics on fate and transport of a light NAPL" Utrecht University, Netherlands, November 2010
5. Monika Agnihotri "Runoff Modelling and crop water planning of Gadarwara watershed in Madhya Pradesh" IIT Roorkee, June 2013
6. Mamata Verma, "Vulnerability and Pollution Risk Assessment of Groundwater Resources of Doon Valley, India" IIT Roorkee, June 2013

7. Heidi Eilzer from Technical University Dresden, Germany “Impact of soil-moisture content on LNAPL fate and transport in unsaturated zone”, IIT Roorkee, Completed
8. Sachi Srivastava “Modeling dense non-aqueous phase liquids transport in variably saturated porous media ”, IIT Roorkee, June 2014
9. Rakesh Deopanday “Geophysical Investigation of groundwater availability” IIT Roorkee, June 2014
10. Sayed M. Junaid “Nitrate fate and transport simulation in heterogeneous vadose zone of Doon Valley, Uttarakhand, India ” IIT Roorkee, June 2014
11. Haji shaaban “Groundwater Pollution Risk Assessment of the Zanzibar Island in Tanzania” IIT Roorkee, June 2014
12. Kuntal Purkayastha “Soil Moisture Dynamics Modeling In Vadose Zone Using Hydraulic Redistribution Mechanism of Plants” IIT Roorkee, June 2015
13. Manish Tungaria “Groundwater Protection Planning: A case study from Saharanpur City U.P.” IIT Roorkee, June 2015
14. Saurabh Sharma “Impact of water table dynamics on sea-water interface in coastal zone using sand tank experiments” June 2016-
15. Jogendra Pal “Numerical analysis of groundwater flow on efficiency of ground source heat pumps” June 2016
16. Himanshu Tyagi “Modeling saline water interface under varying groundwater flow conditions” May 2017
17. Vivek Kumar “Role of substrate pressure and temperature on CO₂ sequestration” June 2017
18. Abhishek Das “Hydro-geochemical analysis of Mewat (Nuh) district, Haryana” June 2017

Supervision of BTech Projects: Completed: 4 (Two at IIT Delhi and one at Utrecht University, one at IIT Roorkee)

Coordinated Workshops/Seminars

1. Three days training on “Identification of Remediation and Management of Polluted soil and Groundwater Sites” On Nov 20-22, 2017 sponsored by CPCB (Coordinator)
2. A brain storming session on “Reactive Transport Modelling for Discrete Fracture Network in Porous Media” on April 12, 2017 at Department of Hydrology, sponsored by CCTech Pune (Coordinator)
3. Two week GIAN training workshop on “Integrated Modeling of Subsurface flow and solute transport in porous media: challenges and opportunities” 02-14 Jan, 2017 sponsored by MHRD(Coordinator)
4. Five days training on “Identification of Contaminated sites and Its treatment technologies, Interferences and data Management using GIS Hands on training”14-18 Nov. 2016 sponsored by CPCB (Coordinator)

5. Two week GIAN training workshop on “Remediation and Management of Polluted Groundwater Sites” 16-24 May, 2016 sponsored by MHRD (Coordinator)
6. One-day workshop on “Modeling fate and transport of soil water pollutants” February 13, 2016 at IIT Roorkee sponsored by QIP (Coordinator)
7. A brain storming session on “Bioremediation of LNAPL Polluted Land under (Semi)-arid Coastal Environment Conditions” organized on November 10, 2014 at Department of Hydrology, IIT Roorkee sponsored by DST (Coordinator)
8. Two mass awareness activities on Groundwater Hydrology at Department of Hydrology with collaboration of National Institute of Hydrology (NIH) during the technical festival Cognizance, of IIT Roorkee on March 22-24, 2013 and March 21-23, 2014 sponsored by NIH (faculty Advisor)

Details of sponsored and consultancy projects

Sponsored Research Projects

Sr.No.	Title	Sponsoring Agency	Period	Sanctioned Amount	PI/C O-PI	Status
1	Bioremediation of LNAPL polluted land under (semi)-arid coastal environment conditions	DST	2011-2016	73 Lakhs	PI	Completed
2	Multidimensional soil water flow and nonpoint source pollutant movement through deep and heterogeneous variably saturated zones, Ministry of Human Resource and Development	MHRD	2012-2017	9.5 Lakhs	PI	Completed
3	In-situ Arsenic sequestration using engineered nanomaterials	DST	2016-2017	30 Lakhs	CO-PI	Ongoing
4	Reactive Transport Modelling for Discrete Fracture Network (DFN) in Porous Media	CCTech, Pune	2017-2020	19.80 Lakhs	PI	Ongoing
5	Benchtop Atomic Absorption Spectroscopy, under SMILE Grant, IIT Roorkee,	SMILE Grant	2017-1018	45 Lakss	PI	Ongoing

Consultancy Projects

Sr.No.	Title	Sponsoring Agency and Concern officer	Period	Amount
1	Geophysical investigation in Sikar district, Rajasthan, 2.95 Lacs, 6 Months, Tentatively Accepted	DS Group, Noida	2017-2018	3 Lakhs
2	Hydrological Survey for siting of tube wells in five villages in Baitalghat block, Dist. Nainital	Uttarakhand Irrigation Dept.	2017-2018	08 Lakhs
3	Hydro-geological monitoring and analysis of groundwater in and around Lalitpur thermal power plant	Spatial Geotech Pvt. Ltd, Noida	March-July, 2017	2.30 Lakhs

4	Ground water coloration studies near Shabajpur village, Gajraula	Jubilant Life Sciences Limited(Co-PI)	2014-2017	14.97 Lakhs
---	--	---------------------------------------	-----------	-------------

Professional Bodies Membership

1) International Association of Hydrological Sciences (IAHS), 2) International Society for Porous Media (INTERPORE), 3) American Geophysical Union (AGU), 4) International Association of Engineers (IAENG), 5) Indian Association of Hydrologists (IAH), 6) Indian Association of Water Resources Society (IWRS), 7) Association of Global Groundwater Scientists (AGGS)

Awards, Fellowships, Recognition

- The prestigious Ramanujan Fellow award conferred by Department of Science and Technology, India from January 2011- 2016
- Session co-chairperson of technical session on Groundwater hydrology in *HYDRO-2015*, 20th International Conference on Hydraulics, Water Resources and River Engineering, IIT Roorkee, 17-19 Dec, 2015.
- Session chair in the National Conference on Transportation and Water Resources Engineering (NCTWE-2015) held by L. D. College of Engineering Ahmedabad, Gujarat on April 25-26, 2015
- Served as chairperson for the poster session entitled “Nonpoint Source Flux Impact on Groundwater, Vadose Zone, and Surface Waters: Assessment, Mechanisms, and Control Strategies” in AGU held on Dec 15-19, 2014 in San Francisco, California
- Postdoctoral Fellowship awarded by University of California, Davis from July 2010 to Dec 2010.
- Postdoctoral Fellowship awarded by University of Utrecht, Netherlands from Nov 2008-June 2010.
- Research grant awarded by the EU from Nov 2006 to Dec 2008 during PhD and postdoctoral research at UNESCO-IHE Delft, The Netherlands.
- Scholarship by MHRD, New Delhi during PhD and MTech study at IIT Delhi.
- Qualified the National Eligibility Test (2003) for Lectureship / Assistant Professor conducted by ASRB, ICAR, New Delhi, India.

Invited/Recorded Talks

1. Keynote talk on Engineered Bioremediation of LNAPL Polluted Soil-water Resources during the conference on Emerging Trends in Water Resources and Environmental Engineering (ETWRE) held at MVGR College, Vizianagaram, Andhra Pradesh On March 30, 2017.
2. A talk on “Phyto-remediation for improving water quality of lakes” during a 5-days training course on ILBM approach for conservation and management of lakes at NIH Roorkee on March 23, 2017

3. Expert talk on “Modelling aspects of (sub)surface water resources systems in basin planning” during a one short term training courses on River Basin Planning using HEC Software held at Department of Hydrology on September 07, 2016 and Feb 24, 2017
4. Keynote talk on “Groundwater flow and contaminant transport simulation” during the National Conference on Transportation and Water Resources Engineering (NCTWE-2015) held by L. D. College of Engineering Ahmedabad, on April 26, 2015.
5. “Modeling Concepts of water resources systems” external expert for research week-2015 at GTU, Ahmedabad on April 09, 2015
6. A talk on “Coastal and seasonal wetlands: An overview” during the short term training course on ‘Climate change issues and its impacts on the water resources management in coastal and seasonal wetlands’ April 06-17, 2014 at Department of Hydrology, IIT Roorkee
7. ‘Applied Modeling of Water Resources Systems’ in workshop organized by Gujarat Technical University (GTU), Ahmedabad on March 31, 2014.
8. A talk on “Modeling root water uptake and soil moisture dynamics considering the root compensation mechanism” in workshop on “Water Use Efficiency” at Department of Water Resources Development & Management, IIT Roorkee on December 09, 2013
9. A talk on “Bioremediation of hydrocarbon polluted groundwater using biostimulation and bioaugmentation techniques” in the mini-symposium titled ‘Eco-technologies for domestic wastewater treatment and reuse’ at UNESCO-IHE Delft, Netherlands on November 29, 2013
10. A talk on “Plant-assisted Bioremediation of LNAPL contaminated groundwater” in the two-day Symposium titled ‘Research in porous media science and technology’ at earth Sciences Building, Utrecht University, Netherlands on 25-26 November, 2013
11. Pollution Risk Assessment of Groundwater Resources of an Intermontane Watershed in Uttarakhand State, India” in a workshop on Groundwater Management in Uttarakhand held by CGWB, Dehradun on Feb 15, 2013
12. “Bioremediation of LNAPL polluted soil-water sites in (semi)-arid coastal regions” at Center for Rural Development and technology, IIT Delhi on November 30, 2012.
13. Series of four-lectures on groundwater hydrology were delivered for video recording at TERI University, New Delhi for an e-learning MHRD project in March-April 2012.
14. “Mechanisms of groundwater flow and contaminant transport modelling” at L.D. College of Engineering Campus, Gujarat Technological University (GTU), Ahmedabad on March 15, 2012.
15. “Bioremediation of LNAPL Contaminated Soil-water in (Semi)-arid Coastal Environment” at Indian Institute of Science Education and Research (IISER) Bhopal, India on June 09, 2010.
16. “Phytoremediation of heavy metal contaminated soils” at Indian Institute of Technology (IIT) Kanpur, India on January 01, 2009.
17. “Producing and processing metal contaminated biomass” at UNESCO-IHE Institute for Water Education, Delft, Netherlands on May 13, 2009.

PhD Examiner

1. Najenga Mburu “Experimental and modeling studies of horizontal sub-surface flow constructed wetlands treating domestic wastewater” UNESCO-IHE Delft, The Netherlands, November 29, 2013 (stand-by examiner)
2. Sanjaykumar Kanubhai Dave, The study of different River catchment Models, L.D. College of Engineering, Gujarat University, Ahmedabad, September 2011

3. S. Bhanushanker Joshi, Determination of rainfall runoff relationship & deviation of instantaneous unit hydrograph using Nash model and Clark model for Bhadar basin upto village Vegadi of jetpur Taluka of rajkot district of Gujarat state- India, Nirma Institute of Technology, Ahmedabad, November 5, 2012

- 18) Basu, S, Yadav B. K., Mathur, S. (2013) "Plant enhanced bioremediation of a BTEX compound (Toluene) in polluted groundwater" in Proceedings of National Groundwater Conference held by Tamil Naidu Agricultural University, Chennai on Dec 9-11, 2013
- 19) Verma, M., Yadav, B. K. and Singhal, D. C. (2013) "Pollution Risk Assessment of Groundwater Resources of an Intermontane Watershed in Uttarakhand State, India" in the workshop on Groundwater Management in Uttarakhand held by Central Groundwater Board (CGWB), Dehradun on Feb 15, 2013.
- 20) Gupta, P.K., Ranjan, S. and Yadav, B. K. (2013) "BTEX biodegradation in soil-water system having different substrate concentrations" in the International Conference on Algal Biorefinery (ICAB) held at IIT Kharagpur, India on January 10-12, 2013.
- 21) Yadav, B. K. and Siebel, M. A. (2012) "Decontamination of Lead (Pb) Containing Root-zone Water uses the wetland plant *Carex pendula*" in the fifth International Groundwater Conference (IGWC) held at Maulana Azad College of Arts, Science & Commerce, Aurangabad, India on December 18-21, 2012.
- 22) Yadav, B. K. and Hassanizadeh, S. M. and Rajbhandari, S. (2011) "Biodegradation of toluene (a BTEX) under seasonal and diurnal fluctuations of soil-water temperature" in International Congress of Environmental Research (ICER), held at SVNIT Surat, India on Dec 15-17, 2011.
- 23) Yadav, B. K., Hassanizadeh, S. M. and Kleingeld, P. J. (2010). "Biodegradation of BTEX under Varying Soil Moisture and Temperature Conditions" in the first international conference on Frontiers in Shallow Subsurface Technology, held at TU Delft, The Netherlands on January 20-22
- 24) Yadav, B. K., Hassanizadeh, S. M. and Kleingeld, P. J. (2009). "Biodegradation of a Light NAPL under Varying Soil Environmental Conditions" in AGU Fall Meeting held in San Francisco, California, USA on December 14-18
- 25) Yadav, B. K., Hassanizadeh, S. M. and Kleingeld, P. J. (2009). "Bioremediation of a LNAPL (Toluene) Polluted Soil in (Semi)-arid Environment" in International Conference on Non-linearities and Upscaling in Porous Media, held at Stuttgart University, Germany on October 5-7

- 26) Yadav, B. K., Siebel, M. A. and Mathur, S. (2008) "Modeling Phytoremediation of Heavy Metal Contaminated Soils" in 1st International Conference on G16 Research Frontiers in Chalcogen Cycle Science and technology, held on May 28-29 at Wageningen University, The Netherlands
- 27) Yadav, B. K., Mathur, S. and Siebel, M. A. (2008). "Unsaturated Groundwater Flow Modeling in Presence of Plant Roots" in International Groundwater Conference on Groundwater dynamics and Global Change held at Rajasthan University, Jaipur, India on March 11-14
- 28) Yadav, B. K., Keshari, A. K. and Siebel, M. A. (2007) "Forecasting catchment flow for a coastal lake using artificial neural networks" in Taal-2007: 12th world lake conference, Conserving lakes and wetlands in future, held in Jaipur, India on 28 October- 2 November 2007
- 29) Yadav, B. K. and Mathur, S. (2006). "Dynamic Modeling of Plant Roots Water Uptake in Vadose Zone for Different Irrigation Techniques" in The Wise water resources management towards sustainable growth and poverty reduction, held in Bangkok, Thailand on October 16-18
- 30) Yadav, B. K. and Mathur, S. (2006). "A Mathematical Model for Plant Response to Combined Salinity and Moisture Stresses" In: An International Perspective on Environmental and Water Resources 2006, held by ASCE in New Delhi, India on Dec 18-20, 2006.
- 31) Yadav, B. K. and Mathur, S. (2005) "Potential Role of Vegetation in Groundwater Decontamination Modeling" in The Third International Symposium on Southeast Asian Water Environment, Organized by University of Tokyo at AIT Bangkok, Thailand in December, 2005.
- 32) Yadav, B. K. and Mathur, S. (2005) "Phytoremediation Modeling for Heavy Metal Contaminated Soils" In: Third International Conference on Plants and Environmental Pollution (ICPEP-3), Organized by International Society of Environmental Botanists at NBRI Lucknow, India in Nov-Dec. 2005.
- 33) Yadav, B. K. and Mathur, S. (2005) "Phytoextraction Modeling of Contaminated Soils" In: proceeding of Fifth International R&D Conference on Development and Management of Water and Energy Resources, Organized by CBIP in February 2005 in Bangalore, India, Vol-IV, pp 78-84
