Item No. 83.1: To consider the proposals from the Convocation Committee and decide the mode and timing of Convocation 2020.

The following two proposals have been put forth in the Convocation Committee:

First proposal: A physical Convocation be held in the Convocation Hall but only for awards/medals winners and for Ph.D. students already in the campus. The seating arrangements for the Senators be done in front of the dais with adequate social distance. The Heads of departments may announce the names of the students as usual. The names and photographs of all the graduating student be flashed on the screen, one by one. Live telecast of the event be done online. Live/recorded speech of the Chief Guest be presented. Several refinements of this hybrid proposal are possible.

Second Proposal: A full physical Convocation be held next year as soon as the situation allows. If the Convocation is postponed to the next year, the Senate/BoG be approached so that degrees can be provided to the students who need them urgently. Similarly, names of awards/medals recipients be finalised and declared at the earliest so that the awardees can start using them in their CVs.

The Senate is requested to consider and decide the mode and timing of Convocation 2020.
